

ADP France National Employment Report: Private Sector Employment in France Decreased by 900 Jobs in June 2021

NANTERRE, FRANCE – July 20, 2021 – Private sector employment in France decreased by 900 jobs from May to June according to the June *ADP® France National Employment Report*. Broadly distributed to the public each month, free of charge, the *ADP France National Employment Report* is produced by ADP Research Institute® in collaboration with Moody's Analytics.

The report, which is derived from actual headcount data, measures the change in total nonfarm private employment each month on a seasonally-adjusted basis. It provides a timely look at labor market trends based on real employment data, and differs from unemployment reports which show the number of people looking for a job. The two indicators should, all other things held equal, go in opposite directions. However they may go in the same direction, especially when there are changes in the labor workforce, leading to more labor market entrants than job creation, for diverse reasons: demographic trends, cyclical movements or policy changes such as a higher retirement age.

June 2021 Report Highlights

Total France Nonfarm Private Employment¹: -900

Industry Snapshot:

• Manufacturing	-600
• Trade	200
• Financial Services	-200
• Business Services	-500
• Transportation	0
• Real Estate	0
• Other ²	300

“The France labor market reported job loss in June,” said Nela Richardson, chief economist, ADP. “The manufacturing and business sectors were the major drivers of the decrease in jobs. However, lifted lockdowns allowed businesses to reopen in late May, propelling an increase in consumer demand and spending.”

¹ Including 16 industry sectors (cf. report [methodology](#))

² Other includes: Energy, Water and Waste, Construction, Accommodation and Food Services, Information and Communication, Public Services, and Household Services

About the ADP France National Employment Report

The ADP France National Employment Report is a monthly measure of the change in total France nonfarm private employment derived from declared aggregated headcount statistics from a sample of ADP® clients in France, issued at the level of establishments (non-identifiable). The report, which measures headcounts gathering nearly 1.5 million French workers, is produced by the ADP Research Institute®, a specialized group within the company that provides insights around employment trends and workforce strategy, in collaboration with Moody's Analytics, Inc.

Each month, ADP Research Institute issues the *ADP France National Employment Report* as part of the company's commitment to adding deeper insights into the labor market in France and providing businesses, governments and others with a source of credible and valuable information. The *ADP France National Employment Report* is broadly distributed to the public each month, free of charge.

For a description of the underlying data and the statistical model used to create this report, please see "*ADP France National Employment Report: Development Methodology*" at www.fr.adp.com/national-employment-report-france.
